FOCALSCOPE IMPLEMENTATION: A CASE STUDY

D-Link: Building Networks for People

Founded in 1986, D-Link is a global leader in the design, manufacture, and marketing of advanced networking, broadband, digital, voice and data communications solutions.

Following the company logo, “Building Networks for People”, D-Link continually meets the global networking and connectivity needs of digital home consumers, small office professionals, small- to medium-sized businesses, and enterprise environments.

D-Link’s business operations were spread across 8 branch offices in the Asia-Pacific region, each of which was running legacy PBX systems isolated from each other. To optimize the productivity of its operations, D-Link needed to integrate its branches into a single network to facilitate business continuity and minimize disruptions.

About Lantone Systems Pte Ltd

Since 1998, Lantone Systems has established itself as a leading industry player in the provision of IT solutions for MNCs and SMEs alike. We are equipped to offer a broad range of solutions that are tailored to meet the Computing, Network, Telephony and Infrastructure needs of your organization.
